Summary

I'm a current computer science student with a solid foundation in this field, and I've recently finished a five-month full-stack development course. Eager to gain practical experience, I'm actively seeking opportunities to apply my knowledge and skills to real-world IT projects. I'm enthusiastic about contributing to the industry and further honing my abilities.

Skill Highlights

- Good communication skills
- Strong analytical skills
- Complex problem solver
- Creative design
- Innovative Understanding of computer architecture
